

Trash facility hours of service: 6:00 a.m. to 7:00 p.m. every day

The trash service access fobs are for a single household and not to be shared with other people who do not pay for the service. Allowing others to use this service without paying, forces the Town to increase the fees to cover the cost of operations. Only one fob per account is allowed.

The Goldsby Trash Facility is NOT for commercial waste of any kind.

Small dumpsters are for bagged trash **only!**

Place allowable items that are **not** in a trash bag in the large open top dumpster. Place all bagged trash in the small carts for the compactor. Please do not put cardboard, limbs, car parts or construction material of any kind in the small carts. Do not place anything other than bagged trash in the small dumpsters.

All non-bagged allowable items are to be placed in the large open top dumpsters.

No waste created by business (i.e. construction, retail, office, etc.) are to be disposed of at our facility. The facility is for trash from residential customers only. Do not dispose of hazardous waste such as oil, pesticides, automotive batteries, paint, tires, or dangerous chemicals at this facility. The trash facility is not for any type of construction material. Card board boxes must be broken down. However, you are encouraged to take them to a recycle facility.

No limbs, brush, tree trunks or bushes in the large dumpster.

If you are a Goldsby resident, Ordinance 2007-8 addresses burning of yard waste created on your own property. A copy of this ordinance can be obtained at Goldsby Town Hall.

We will be forced to discontinue a trash customer's service if they are observed in person or by surveillance not adhering to these instructions.

An application is found at www.townofgoldsbys.com for trash service. Payment for the service will be added to your water bill, if applicable, and can be auto drafted, check, cash or credit card.

Thank you for your attention to this matter,

Town of Goldsby
