

Trash facility hours of service: 5:30 a.m. to 10:00 p.m. every day

The trash service access fobs are for a single household and not to be shared with other people who do not pay for the service. Allowing others to use this service without paying forces the Town to increase the fees to cover the cost of operations.

Small dumpsters are for bagged trash **only!**

Place **everything else** in the large dumpster!

The Goldsby Trash facility is NOT for commercial waste of any kind.

No waste created by businesses (i.e. construction, retail, office, etc.) are to be disposed of at our facility. The facility is for trash from residential customers only. Do not dispose of hazardous waste such as oil, pesticides, automotive batteries, tires, paint or dangerous chemicals at this facility. The trash facility is not for any type of construction material.

Put everything that is **not** in a trash bag in the large open top dumpster. Place all bagged trash in the small carts for the compactor. Please do not put cardboard, limbs, car parts or construction material of any kind in the small carts. Placing items other than bagged trash in the small dumpsters hampers the operation of the compactor and greatly increases labor costs for the Town.

We will be forced to discontinue a trash customer's service if they are observed in person or by surveillance not adhering to these instructions.

If you are a Goldsby resident, Ordinance 2007-8 addresses burning of yard waste created on your own property. A copy of this ordinance can be obtained at Goldsby Town Hall.

If you are a Goldsby Water Authority customer you now have the option to have your trash account billed monthly and included on your water bill. Please contact town hall if you are interested in this option.

If you are not a water customer you can still have your trash service auto drafted from your bank account.

Thank you for your attention to this matter,

Town of Goldsby
